Day-long webathon will preview all five chapters of Update 2018

[Registration](#) is open for a [day-long webinar](#) that will preview all five chapters of [California Water Plan Update 2018](#). The [webinar](#) will be an opportunity to provide input on any area of concern in Update 2018. The session will begin at 9 a.m. on Tuesday, January 9. Also, [RSVPs](#) are still being accepted for an [Update 2018 workshop](#) on Thursday, Jan. 4. It will cover Chapter 4 (plans for investing in water resources sustainability) and Chapter 5 (funding and implementation).

Panel discussion transcript from Update 2018 plenary meeting now available

A [panel discussion transcript](#) from the recent Update 2018 plenary meeting has been posted online. Panel members talked about issues and benefits of connecting integrated regional water management with the implementation of the [Sustainable Groundwater Management Act](#). The [plenary meeting](#) was held in September.

Discount registration rates available for managed aquifer recharge symposium

Save the dates for the [16th Biennial Symposium on Managed Aquifer Recharge](#). It will be March 6 and 7, in San Diego. Along with information on the latest groundwater recharge techniques, there will be an optional field trip to the [Carlsbad Desalination Plant](#). [Discounted registration rates](#) are available through Sunday, Jan. 21.

New resource to be launched next month will provide climate action plan information

After the New Year, a new resource will be launched to help local governments learn more about climate action plans and policies being implemented throughout California. The [Climate Action Portal Map](#) (CAP-Map) will provide a database of strategies. A [webinar](#) to launch and demonstrate the map will be held Thursday, Jan. 11.

Central Valley Landscape Conservation Project sets dates for next workshop

The next [Central Valley Landscape Conservation Project workshop](#) will be Feb. 26 and 27, in Sacramento. It will focus on developing plans for landscape-scale adaptation actions. The workshop [webpage](#) includes information on pre-workshop webinars.

Examining ways to give all Californians safe and affordable drinking water

[An event](#) to promote safe, affordable, and accessible water for all Californians will be held Thursday, March 15, in Sacramento. Leaders from State government, local agencies and non-profit organizations from throughout California will look at potential solutions to the challenges standing in the way of providing safe drinking water. The event will be hosted by the [Regional Water Authority](#).
