

# **Statewide Integrated Flood Management Planning Program**

**Presentation to CWP 2013  
Public Advisory Committee  
June 2011**

## **SIFMP Purpose**

- Understand California's flood risks
- Support local, regional, State, Federal and tribal partnerships
- Identify IFM Strategies
- Recommendations
  - Improving and sustaining IFM
- Coordinate within DWR and with other planning efforts

# SIFMP Program Components

Integrated Flood  
Management (IFM) in  
California Water Plan

Flood future:  
Recommendations  
for managing  
California's  
flood risk

# Statewide Flood Hazards

SOURCE: DWR's Hydrology and Flood Operations Office (Figure developed by GEI)

# Flood Future Report

1. Characterize California's Flood Risk
2. Document Flood Infrastructure
3. Support local, regional, State, and federal and tribal Partnerships
4. Integrated Flood Management Opportunities
5. Financing Strategy
6. Challenges and Opportunities for Improving Flood Management
7. Recommendations

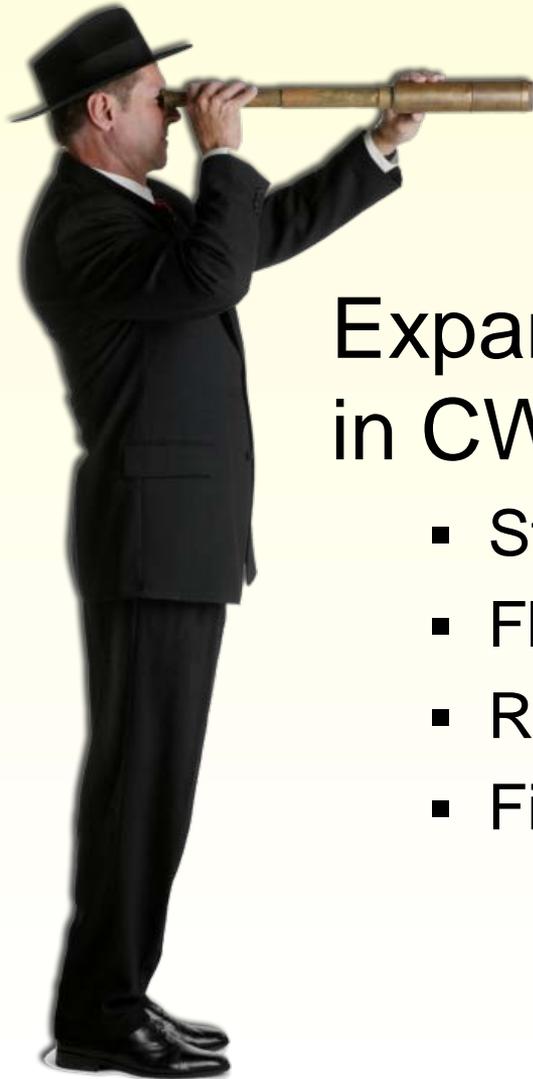

# 2012 Flood Future Report Recommendations

- Types of Recommendations
  - Financial
  - Institutional
  - Legislative
  - Policy
  - Other

Develop  
Recommendations

# IFM in California Water Plan 2013

Expand the vision presented  
in CWP 2009

- Strategic Plan
- Flood Risk Management Strategy
- Regional Report
- Finance Plan

## IFM in CWP 2013

- IFM throughout the State
- Connect IFM with IWM
  - Management actions
  - Opportunities to implement IFM
  - Financing
- Incorporate Flood Future Report information
- Flood Caucus
- Recommendations

# Schedule
