2008 CENTRAL COAST REGIONAL WORKSHOP ANNOUNCEMENT**

The Department of Water Resources, in cooperation with other State agencies, invites you to participate in the Central Coast Regional Workshop to gather and share information about the California Water Plan (CWP) Update 2009. The CWP is California's strategic plan for water and covers topics such as water uses, water supply, water quality, regional conditions, regional water planning and flood management, and options for improving water management.

The workshop takes place on March 25 from 9:30 A.M. to 2:30 P.M. at 1432 Abbott Street in Salinas, and is hosted by the U.C. Cooperative Extension and Monterey County Water Resources Agency. The agenda for the workshop is enclosed, and representatives of: water agencies and associations; local, state, Tribal (recognized and non-recognized) and federal government; watershed and community groups; conservancies; and the public are strongly encouraged to attend.

This workshop is specific to the Central Coast Hydrologic Region. At the workshop, your input will be sought regarding local and regional activities and conditions for the initial draft Regional Report. Discussion will include CWP coordination with related integrated regional water management plans and integrated flood management. The workshops will also present draft outlines for the water resource management strategies.

To assure adequate seating, kindly RSVP to Fran Schulte at 559-230-3340 or [fschulte@water.ca.gov](mailto:fschulte@water.ca.gov).
