

# Central Coast Regional Report

- Process
- New content
- Where we are now

# Process

- **New outline**
- **Gather data**
- **Regional Reports compared and revised for consistency**

# Changes to the Regional Report Outline

2009	2014
Hydrologic Region	Hydrologic Region
Summary	Summary
	<b>Current State of the Region</b>
Setting	Setting
Watersheds	Watersheds
	Groundwater Aquifers
Ecosystems	Ecosystems
	Flood
Climate	Climate
	<b>Demographics</b>
Population	Population
Tribal Lands	Tribal Communities
	<b>Disadvantaged Communities</b>
Land Use Patterns	Land Use Patterns

2009	2014
<b>Regional Water Conditions</b>	<b>Regional Resource Management Conditions</b>
Environmental Water	Water in the Environment
Water Supplies	Water Supplies
Water Uses	Water Uses
Water Balance Summary	Water Balance Summary
	<b>Project Operations</b>
Water Quality	Water Quality
	•Surface Water Quality
	•Groundwater Quality
	•Aquifer Conditions and Issues
	<b>Near Coastal Issues</b>
Flood Management	Flood Management
Flood Hazards	Risk Characterization
Historic Floods	Historic Floods

2009	2014
Flood Management	Flood Management
Flood Hazards	Risk Characterization
Historic Floods	Historic Floods
Flood Governance	
Flood Risk Management	Damage Reduction Measures
	<ul style="list-style-type: none"> <li>• Interregional and Interstate Planning Activities</li> </ul>
	Water Governance
	<ul style="list-style-type: none"> <li>• State Funding Received</li> </ul>
	<ul style="list-style-type: none"> <li>• Local Investment</li> </ul>
	<ul style="list-style-type: none"> <li>• Water Conservation Act of 2009 (SB x7-7) Implementation Status and Issues</li> </ul>
	Current Relationships with Other Regions and States

2009	2014
<b>Regional Water and Flood Planning and Management</b>	<b>Regional Water Planning and Management</b>
Integrated Regional Water Management	Integrated Regional Water Management Coordination and Planning
	<b>Accomplishments</b>
<b>Challenges</b>	<b>Challenges</b>
Regional	
Flood Management	
Drought and Flood Planning	Drought and Flood Planning
<b>Looking to the Future</b>	<b>Looking to the Future</b>
	Future Conditions
	<b>Future Water Demand</b>
	<b>IRWMP Summaries</b>
	<b>Resource Management Strategies</b>
	•Strategy Availability
Seawater Intrusion	•Regional Strategies
Climate Change	Climate Change
Future Scenarios	

A graphic featuring the word "NEW" in white, bold, sans-serif font inside a yellow, starburst-shaped circle with a gradient. To the right of this graphic, the word "Content" is written in a large, bold, black, sans-serif font.

# **NEW** Content

- **Groundwater information**
- **Disadvantaged Communities**
- **Project Operations**
- **Climate Change and Water-Energy Nexus**

# Where we are now:

*Looking for more information and content:*

- **IRWM projects and accomplishments**
- **Inter-regional IRWM efforts and coordination**
- **Potential inter-regional IRWM projects?**
- **Recent projects or planning to address groundwater and/or water quality problems**

# Thank you for your input
