

Statement of Diversion and Use

Presented by
State Water Resources Control
Board

Statements of Diversion and Use

- Updates made in 2009
 - Removed the exemption for tidal zone
 - Added monthly measurement requirements
 - Added requirement to use a measurement device (for 2012 reporting)
 - Added civil liability penalties for non-compliance

Who Needs to File a Statement?

Anyone who diverts surface water and does not have an appropriative permit, license or registration.

Including:

- Riparian Diverters
- Pre-1914 Appropriative Claims
- Water diverters with pending water rights applications
- Adjudicated rights not reported by a watermaster
- Any other diversion legal or not

Statement exemptions:

- You have a spring that does not flow off the property.
- The diversion is covered by a permit, license or registration with the Water Board.
- The diversion is regulated by a watermaster appointed by DWR and included in annual reports.
- The diversion is included in annual reports filed with a court or the Board by a watermaster appointed by a court.

New for 2012 Reporting

Statement Diverters are required to use a measuring device to measure water diverted monthly.

Form update: Section to report measuring device.

1. List information about measuring device or
2. Explain why measuring device is not locally cost effective.

***Even if you did not use one of the measuring devices listed, you are still required to use some form of measurement for your diversions monthly.

Supplemental Statements

- 2012 reports mailed
- Reports filed
- Delta reports filed
- Certified notices for non filers
- Where to find filing information
