

Inyo National Forest Plan Revision

What is a Forest Plan?

- Required for all national forests/grasslands
- Provides broad resource management direction
 - Programmatic, not site-specific
 - Ten to fifteen year planning period
- All uses of the forest need to conform with plan direction

Chapters Assessing Water and Associated Habitat

- Chapter 1 - Ecosystem Condition (Aquatic, Riparian Ecosystems)
- Ch. 2: Air, Soil, and Water Resources
- Ch. 8: Multiple Uses (Water)

Scheduled Public Meetings
