

# North Coast Regional Report

- Process
- New content
- Where we are now

# Process

- **New outline**
- **Gather data**
- **Regional Reports compared and revised for consistency**

# **NORTH COAST REGIONAL FORUM ON SEPTEMBER 26, 2013**

- 1. Outline**
- 2. Prior Bulletin**
- 3. Population**
- 4. Land and Water Use Data**
- 5. Water supplies**
- 6. Water Demands**
- 7. Environmental water**
- 8. Water budgets**
- 9. Draft report**
- 10. Contributions from outside entities**
- 11. Revised Draft report**

# AREAS OF WORK PROVIDED BY DWR FOR THE NORTH COAST REGIONAL REPORT

**Geologists**

**Groundwater Information**

**Environmental Scientists**

**Climate change information**

**Land & Water Use Scientists**

**Tribal information**

**Other environmental information**

**Land use and water conservation information**

**Engineers**

**Project Management, water balances, flood information text**

**Environmental and L&WU Scientists**

**Demographers**

**Provide population and other demographic information**

**Water Quality specialists**

**Water Quality text, charts and tables**

**IRWM people**

**Reports and text**

**Modelers**

**Future scenarios**

**Economists**

**Economic Forecasts**

**Publications**

**Review and edit report**

# OUTSIDE ENTITIES THAT MADE CONTRIBUTIONS TO THE NORTH COAST REGIONAL REPORT INCLUDE

Entity	Names	Contributions
Siskiyou County Board of Supervisors	Marcia Armstrong	Historical content on Klamath Basin farming and legal framework affecting indigenous people in California
Trinity River Restoration Program	Robin Schrock	TRRP content review
West Coast Watershed	Katherine Gledhill	Information on Scott River Watershed and repair of broken link at IRWMP (NCRP) web site.

# Changes to the Regional Report Outline

2009	2013
Hydrologic Region	Hydrologic Region
Summary	Summary
	<b>Current State of the Region</b>
Setting	Setting
Watersheds	Watersheds
	Groundwater Aquifers
Ecosystems	Ecosystems
	Flood
Climate	Climate
	<b>Demographics</b>
Population	Population
Tribal Lands	Tribal Communities
	<b>Disadvantaged Communities</b>
Land Use Patterns	Land Use Patterns

2009	2013
<b>Regional Water Conditions</b>	<b>Regional Resource Management Conditions</b>
Environmental Water	Water in the Environment
Water Supplies	Water Supplies
Water Uses	Water Uses
Water Balance Summary	Water Balance Summary
	Project Operations
Water Quality	Water Quality
	•Groundwater Quality
	•Drinking Water Quality
Flood Management	Flood Management
Flood Hazards	Risk Characterization
Historic Floods	

2009	2013
Flood Governance	
Flood Risk Management	
	Water Governance
	Current Relationships with Other Regions and States

2009	2013
<b>Regional Water and Flood Planning and Management</b>	<b>Regional Water Planning and Management</b>
Integrated Regional Water Management	Integrated Regional Water Management Coordination and Planning
	<b>Accomplishments</b>
<b>Challenges</b>	<b>Challenges</b>
Flood Issues	Flood Challenges
Water Quality	Water Quality Challenges
Quagga Mussels	Hazard Mitigation Planning
Drought and Flood Planning	Drought Contingency Plans
<b>Looking to the Future</b>	<b>Looking to the Future</b>
	Future Conditions
	<b>Scenarios</b>
	<b>IRWMP Summaries</b>
	<b>Resource Management Strategies</b>
Climate Change Future Scenarios	Climate Change

# **NEW** Content

- Groundwater information  
Disadvantaged Communities
- Project Operations, Climate Change  
and Water-Energy Nexus
- Expanded content for local watersheds

# Where we are now:

*Looking for more information and content:*

- **IRWM projects and accomplishments**
- **Inter-regional IRWM efforts and coordination**
- **Potential inter-regional IRWM projects?**
- **Recent projects or planning to address groundwater and/or water quality problems**

# Thank you for your Comments
