

**Unmet Environmental Water Objectives  
from Update 2009**

- **American River (Nimbus) DF&G Study**
- **Stanislaus River (Goodwin)**
- **ERP #1 Delta Flow Objective**
- **ERP #2 Delta Flow Objective**
- **ERP #3 San Joaquin River at Vernalis**
- **ERP #4 Sacramento River at Freeport**
- **Trinity River below Lewiston**
- **San Joaquin River below Friant**
- **Level 4 Refuges Sacramento Region**
- **Level 4 Refuges San Joaquin Region**

**In the Water Plan scenarios, currently unmet environmental water objectives are used as a surrogate to estimate new requirements that may be enacted in the future to protect the environment. These unmet objectives are instream flow needs or additional deliveries to managed wetlands that have been identified by regulatory agencies or pending court decisions, but are not yet required by law.**
