

## Agricultural Lands Stewardship - RMS Worksheet

1. Thinking about the content within this RMS, and especially sections of new text, are there any “red flag” issues?
2. Are there any new projects, legislation, policies, programs or reports that should be included in the RMS?
3. Do any of the recommendations need to be updated?
4. Do you have suggestions for performance metrics that could measure progress for an RMS? These metrics would inform the next Progress Report (for Update 2013) and future text in Water Plan Update 2018.
