The City of Turlock is utilizing the State model water ordinance and we have implemented it as of January 1. Due to the City's current financial limitations (which are largely due to State raid on our property taxes), it is not our intent to adopt the ordinance per se. That costs money and we simply don't have the funding to do that right now. We have a comprehensive zoning amendment that will be processed sometime this spring and will adopt the State ordinance by reference. At this point in time, we are simply implementing the State ordinance as required by State Law. If you have any specific questions, please feel free to contact me.
