Re: Model Water Efficient Landscape Ordinance

Mr. Simon Eching  
California Department of Water Resources  
Water Use and Efficiency Branch  
Post Office Box 942836  
Sacramento, CA 94236-0001

Dear Mr. Eching:

As indicated in your phone conversation today with Community Development Director Charles LaClaire, the City of Twentynine Palms has elected to allow the State's "Model Water Efficient Landscape Ordinance" to automatically be adopted by statute. As such, the Model Ordinance became the effective Ordinance for water efficiency within the community of Twentynine Palms beginning January 1, 2010.

Please advise the City if any further steps need to be taken in this matter and/or when any amendments or updates to this Ordinance are enacted which the City must also enact.

If you have any questions on this matter, please contact the Community Development Director at (760) 367-6799.

Sincerely,

A handwritten signature in cursive script, appearing to read "Michael Tree".

Michael Tree  
City Manager  
City of Twentynine Palms
