Subject: Water Efficient Landscape Ordinance

Due to the lack of staff and financial resources, as well as City Council mandated priorities, the City of Ukiah was not been able prepare its own Water Efficient Landscape Ordinance that is at least as effective at conserving water as the DWR ordinance.

It is our understanding that as of January 10, 2010, the MWELO has automatically been adopted by statute. We are prepared to implement this ordinance. Please email a copy for our use.

Charley Stump, Director
Planning and Community Development
City of Ukiah
