Subject: Comment on Proposed changes to Model Water Efficient Landscape Ordinance

Good afternoon,

I wanted to provide comment on what appears to be an error in the proposed changes to Appendix A - Reference Evapotranspiration (ET_o) Table in the Model Water Efficient Landscape Ordinance. The error appears in both the striked out text and the new version. The City of Lincoln is listed in the ET Table under Sonoma County with an Annual ET_o of 51.9 inches. There is no such area or city in Sonoma County, nor is there anyplace in Sonoma County with such a high ET_o value. I believe the reference to Lincoln is misplaced and rightly belongs under the heading of Solano County.

Thanks,

Paul Piazza
