Subject: [MWEO] Model Ordinance Disclosures

Kent,

Can you tell me how the Department of Water Resources reached the conclusion that the proposed Model Water Efficient Landscape Ordinance update would have no cost impact on private persons, businesses of various kinds, or jobs? Do you have any documentation indicating that the expected business opportunities and lower water costs would offset the costs of compliance with the updated ordinance, especially as those compliance costs apply to smaller residential and commercial projects?

I would appreciate any information you could share with me on this.

LARRY
