Dear Ms. Colvin

I am writing to express my support of the Department of Water Resources (DWR) plan to amend the Model Water Efficient Landscape Ordinance (MO).

Californians are foolish to waste our limited water supply on water needy decorative-only plantings. It is imperative that the State act now to reduce water consumption.

I hope that some mechanism for citizens to report water wasting (such as large amounts of water running down the gutter, or cities watering medians while it is raining) can be included.
