

Julie,

Please find attached CCASLA's letter in response to the proposed MWELo update. We have carefully reviewed the update proposal and have included a series of comments and recommendations based on our collective discussion of each subject area. We are hopeful that our suggestions will be taken into consideration when preparing the final version of the update. We look forward to continuing our participation in this process and hope we remain a valuable resource. Please feel to contact me should you have any questions.
