Subject: Comments on Draft Water Measurement Regulation (dated 3/18/11)

Baryohay,

Thank you for the opportunity to comment on the March 18th draft of the Water Measurement regulations being developed pursuant to SBx7-7. A group of Agricultural water suppliers and consultants worked together to provide the attached comments. The submittal, attached to this email, includes three components: (1) a transmittal letter; (2) recommended changes to the regulation (in track changes format); and (3) the rationale for the modifications.

We trust that DWR will seriously consider our comments, and incorporate the changes into the regulation.

If you have any problems receiving this email, or any questions regarding the attachments, please do not hesitate to contact me.

Sincerely,

Debbie Liebersbach

Debra C. Liebersbach
