This weekly electronic newsletter is designed to keep you current on California Water Plan news. We welcome comments, suggestions and any news tips that may be of interest to water planners.

### **Landscape irrigation technical workshop set for next Tuesday**

There will be a technical workshop by the California Energy Commission of interest to landscape irrigators at 1:30 p.m. next Tuesday, June 30, in Sacramento. The session will focus on possible efficiency standards and labeling requirements for landscape irrigation equipment. If you can't make the meeting, you can listen to the audio over the Internet; [go here for details](#). For other workshop details, [go here](#).

### **Mark your calendar! Flood meetings planned statewide this fall**

Mark your calendars. DWR's Flood Operations Branch is hosting Pre-season Flood Coordination Meetings throughout the state next fall. The first meeting will be held Sept. 21 in Ventura County and the last in Eureka on Nov. 17. [You can find a complete schedule here](#). The meetings will include overviews of weather forecasts, water and potential flood conditions and emergency responses.

### **Save the date! Water Plan Advisory Committee to meet July 24**

The next Water Plan Advisory Committee meeting will be held on Friday, July 24. The full-day session in Sacramento will feature updates on work of the Climate Change Technical Advisory Group, the Drought effort, and the most recent version of Water Plan text and graphics. For more info, [check here](#).

### **Materials from June 16 Water Plan session now posted**

Materials from a June 16 public workshop on the California Water Plan Update 2009 are now available on the Water Plan website. [You can find the PDF documents here](#). The posted material includes a scenarios overview, the water balance pages from the Highlights, and a Highlights document walk-through.

### **Water symposium asks, 'Are California communities sustainable?'**

The 2009 Summer Symposium titled *A Time for Changing Values, Ideas, and Solutions in Water Management: Are California's Communities Sustainable?* will be held Thursday, July 23, in Sacramento. It's sponsored by the Sacramento Chapter of the Environmental & Water Resources Institute of the American Society of Civil Engineers / Floodplain Management Association / ASCE Committee on Sustainability. [The meeting announcement, details and registration information can be found here](#).

### **DWR schedules San Diego drought workshop**

DWR will hold a drought workshop in San Diego next Tuesday, June 30, to update the region on the effect of the drought and what's being done about it. It will be held from 9:30 a.m. until noon in the Gallegos Room of Caltrans Building One, 4050 Taylor St. [More information can be found here](#).
